NORMA MI SOL —

Babybelly

The babybelly brand stands for exclusive and high-quality photographs with a particularly artistic standard on the subject of family. In addition, babybelly offers a perfectly coordinated shooting experience - consisting of an individual consultation, with outfits and locations selected to suit the type and, if desired, the right styling. We attach great importance to a familiar and personal atmosphere in order to capture the individuality and specialness of everyone in our shootings. When designing the image, we pay attention to small details and give each image the unique „babybelly look“. It stands for warmth, soft tones, naturalness and elegance. All of this is made by hand using high-quality materials.

Norma mi Sol

babybelly photography arose from Norma's passion for photography. It all started with a hobby that Norma lived out on a wide variety of outdoor shoots, until she focused on portraits of pregnant women, babies, children and families. In her career as a photographer, she developed a fine feeling for settings and lighting conditions. With Arielle, Norma has brought a photographer into the team who lives the babybelly philosophy just as much as she does and who supports everyone during the shoot with an incredible amount of sensitivity and reduces any fears of young and old.

A babybelly moment should be a special experience for the whole family and Norma and Arielle give everything for that.

Do you still have questions, wishes or suggestions?
We are happy to advise you aside.
